For gas projects

06. Valves

For water & gas projects

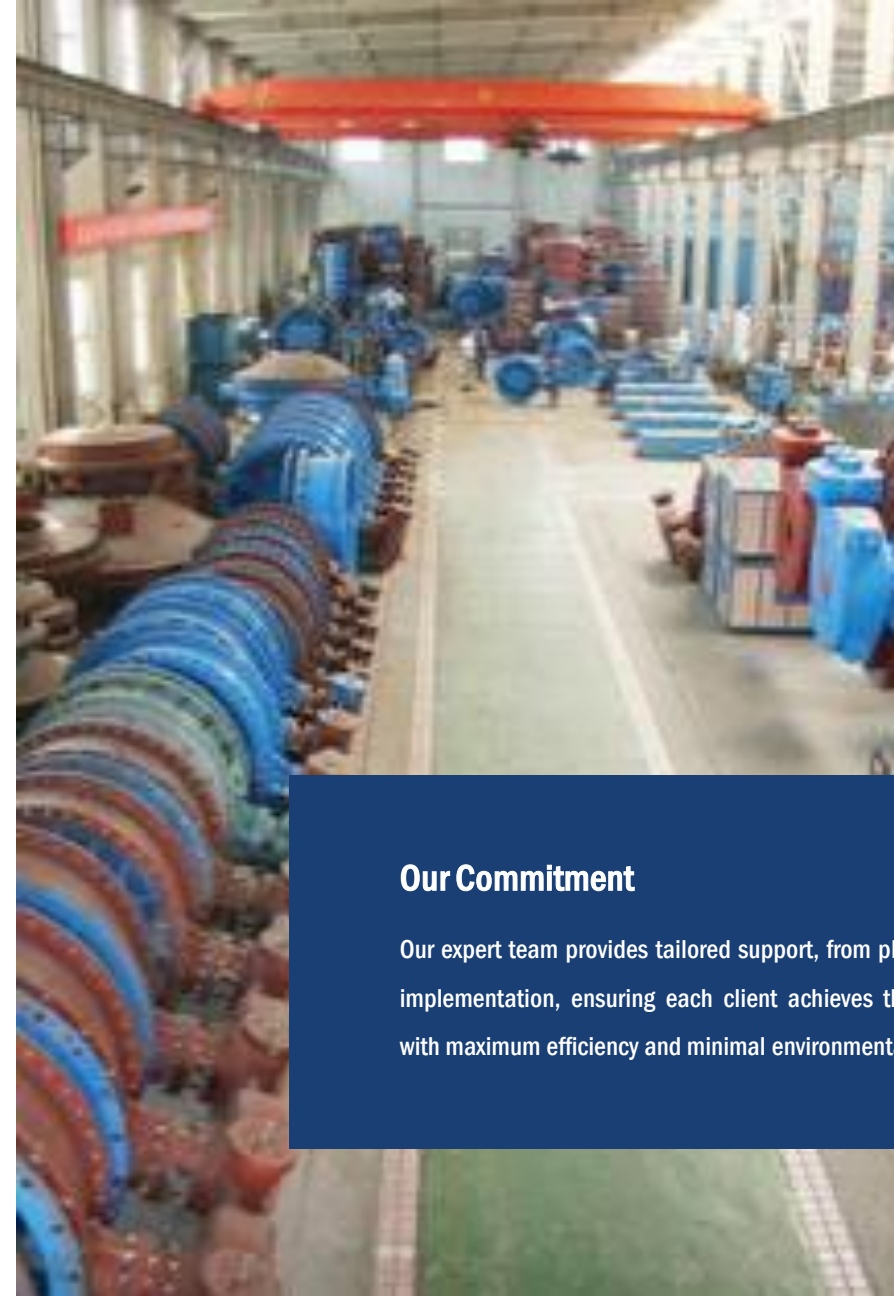

WATER FIELD

Water Field.

IGIT Water Supply Field Services specializes in providing comprehensive water management solutions. With years of expertise, we ensure reliability and efficiency in every project, catering to municipal, industrial, and residential needs. Our commitment to sustainability is evident in our innovative approaches and high-quality materials.

Our Commitment

Our expert team provides tailored support, from planning to implementation, ensuring each client achieves their goals with maximum efficiency and minimal environmental impact.

WATER FIELD

Water field

OFFERINGS:

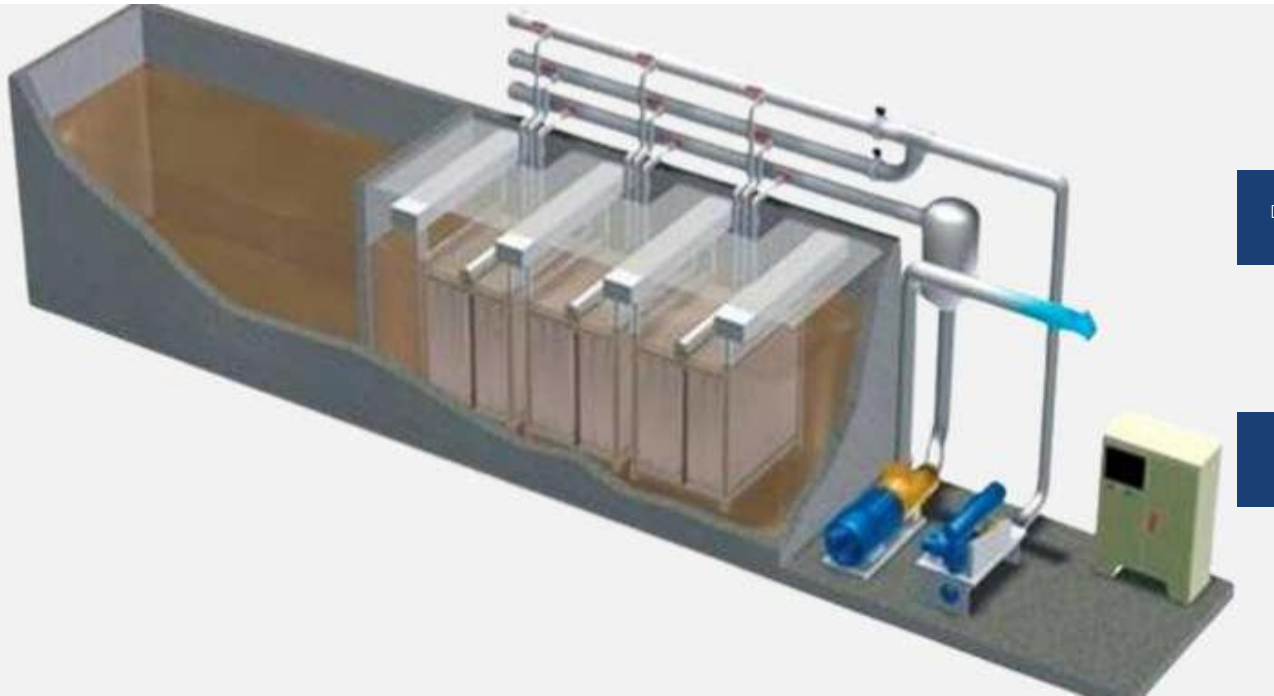

We offer a wide range of water infrastructure products including Ductile Iron Pipes & Fittings, PVC, HDPE, and GRP systems. Each product adheres to the highest international standards like ISO2531 – EN545, ensuring durability and optimal performance.

SOLUTIONS:

From valves to pumps, our solutions are designed for precision and resilience.

WATER FIELD

Portable Water Treatment System.

Designed for efficiency

Offering a comprehensive solution for clean water access in any location. Equipped with advanced filtration technologies, this system effectively removes contaminants, ensuring safe and potable water for a variety of needs.

Delivering clean water where it's needed most

It is ideal for emergency situations, remote areas, and supplemental municipal support. Easy to set up and operate, our system provides immediate benefits with minimal maintenance, making it an essential tool for public health and disaster readiness.

OIL & GAS FIELD

OIL & GAS Field.

IGIT specializes in a comprehensive range of piping solutions for the oil and gas industry. We provide Seamless and Welded Carbon Steel Pipes & Fittings that meet API 5L standards, available in grades from A to X80 and various schedules to suit project demands. Our products ensure high performance under extreme conditions, suitable for demanding oilfield applications.

OIL & GAS FIELD

OIL & GAS FIELD.

Our robust Casing Pipes are engineered for oil drilling and construction, providing unparalleled support and durability. Additionally, we supply Coated Pipes with advanced protective layers such as 3LPE and FBE, designed specifically for the safe and efficient transport of oil, gas, and water across extensive pipeline systems.

Valve & Dispenser Solutions

IGIT provides precision-engineered Valves and state-of-the-art Fuel and LPG Dispensers, designed for optimal flow control and efficient fuel distribution in oil and gas operations.

OIL & GAS FIELD

Mobile Spiral welded Pipe Mill

Compact Spiral Welded Pipe Production

Our Mobile Spiral Welded Pipe Mill offers a flexible and efficient solution for on-site pipe production. Designed for rapid deployment and ease of use, it supports various pipe sizes and meets stringent industry standards, making it perfect for remote locations and urgent projects.

SUPPLY CHAIN

SUPPLY Chain.

Global Supply Network

With over **30 years in the industry**, IGIT leverages longstanding relationships and agreements with top global manufacturers to support our diverse customer base.

Experienced Supply Chain Management

IGIT utilizes its extensive three-decade experience and strong global partnerships to deliver exceptional support to our customers.
